EXPERIENCE _____

[Tabs](#) - Lead Frontend Developer (Part-time)

OCTOBER 2024 - PRESENT

- Led the Frontend Development of the African design library for UI/UX designers - Tabs - helping designers find real life project design inspirations.
- Used technologies like NextJS and NuxtJS to develop pixel-perfect replications of the UI designs made by the design team.

[Smart Arena](#) - FullStack Software Engineer (Freelance, Part-time)

JUNE 2023 - PRESENT

- Led the development of a sales management, analysis and invoicing web application of the company using tools like NextJS, Shadcn and Prisma.
- Engineered a branch and stock management system for the business using React Native to develop a mobile application to be used for each Smart Arena branch around the State.
- Increased the overall productivity and invoice management process of the company.
- Developed an API for product management and display on the company's e-commerce website.

[Nexal Gaming Community](#) - Lead Mobile App Developer (Part-time)

FEBRUARY 2024 - PRESENT

- Led the cross-platform mobile app development of the Esports NG app for the largest gaming community in Africa.
- Implemented the mobile application UI design using Dart (Flutter).
- Ensured that the application state is easily accessible and organized using GetX - a powerful state management tool for Flutter.

[Jumbo Fresh Farm Products](#) - Full-Stack Software Engineer (Freelance)

- Developed a RESTful API for the Jumbo Fresh Farm Products online store using NodeJS with ExpressJS.
- Developed a Content Management System (CMS) for the company, which improved product accessibility, organization and retrieval.
- Created a comprehensive documentation of the API using Postman Documenter.
- Managed the self-hosting of the Content Management System using Coolify with a VPS.

Sharperly - Frontend Engineer (Full-time)

FEBRUARY 2023 - JANUARY 2024

- Developed the landing page and web application for the startup's MVP.
- Implemented various UI designs using NextJS.

PERSONAL PROJECTS _____

Vndor (SaaS)

JUNE 2024

- Developed an online store or catalog creator for social media vendors using technologies like NextJS, Prisma and MongoDB.
- Helped vendors manage, showcase and track their products.

Oversight - (SaaS)

SEPTEMBER 2024

- Developed a team management/productivity SaaS for small to medium teams to make progress and get things done.
- Used technologies like NextJS, Prisma and MongoDB to engineer the SaaS.
